Why Bomanite

We pride ourselves for being the ORIGINAL stamped concrete company. The imprinted concrete process was invented, developed and patented by Brad Bowman, founder of the Bomanite Company in the 1950's.

Bomanite's licensee network expanded rapidly throughout continental USA and by the early 1980's, we welcomed our first international licensees. We are proud to be a worldwide network and family of concrete professionals which has now come to be known as Bomanite International Ltd; with some of our individual Members having over 40 years of experience in working together with Bomanite.

Bomanite International Ltd. has more than 60 years of worldwide experience in manufacturing a wide range of high quality products and tools. We have applied our knowledge and passion diligently over the past 60 years in order to continually improve our products, systems and services through a strong approach towards research and development.

Every Bomanite Member and Bomanite Licensee, as well as individual employees are committed to ensure continuity of the highest standards of quality and service that Bomanite is

known and respected for in all aspects of the global process; including end to end manufacturing, design, and installation of Bomanite products and systems.

With more than 60 years experience, our worldwide network of experienced and highly trained Bomanite specialists are able to deliver innovative systems, in extraordinarily creative designs for all your paving and flooring needs for projects suited to all scenarios within the residential, commercial and municipal market sectors at affordable prices.

Similarly, we also have extensive knowledge and experience of providing ongoing training in manufacturing, installation, technical training and marketing support to our Licensees worldwide.

Should your strategic business plan include pursuing or expanding into the field of decorative concrete anywhere in the world, there is no better choice that you could make than to join our global Bomanite organization. Such a step would immediately provide access for your company to the extensive knowledge, experience, reputation and support for the various facets of the business that has been built up by Bomanite over the last 60 years.

We have maintained unmatched quality for over 60 years and are ready to do the same for you.

Imprint

Bomanite Imprint Systems are cast-in-place concrete flooring & paving that adds a distinctive touch to any project, together with the durability to stand up to the toughest loads and environmental conditions. For over five decades, Bomanite Imprint Systems have offered a virtually limitless palette of colors, textures, and patterns - at a fraction of the cost of traditional materials. Choose from many natural textures including slate, granite, limestone, sandstone, cobblestone and used brick.

Polished Concrete

The patented technology of the Bomanite Custom Polishing System, paired with our long-established craftsmanship delivers the industry's best concrete floor finish. One application, permanent results. Lustrous color, protected by a tight, beautiful sheen.

Available in finishes from satin to gloss, the Bomanite Custom Polishing System offers exceptional resistance to slipping, abrasion and impact. Finished surfaces also repel water and oil and are dust-proof. This finish does not require replacement, recoating or waxing. The Bomanite Custom Polishing System is available only through the licensed Bomanite network, and exclusively by Bomanite contractors trained and certified to install this system.

Exposed Aggregate

Bomanite Exposed Aggregate Systems bring a vintage decorative concrete option to the forefront of the industry with innovative systems, longer-lasting products, and a variety of designs that combine the durability you need with the beauty you desire. With new technology and inventive products, exposed aggregate finishing options have emerged from Bomanite Corporation. With a variety of mixes and an unlimited palette of colors, textures and aggregate options to choose from, Bomanite Exposed Aggregate Systems offer three cost-effective solutions to meet all of your design needs, revealing just how brilliant concrete can be.

Green Solutions

Bomanite Environmental Systems are a variety of cast-in-place, monolithic, pervious concrete pavements that are continuously reinforced to provide superior structural integrity. The Bomanite Environmental Systems are designed to provide professionals with truly sustainable, eco-friendly systems to accommodate a variety of needs.

Custom Systems

Imagine strength and versatility. The possibilities for creative expression with concrete are endless. Not only is concrete durable and strong, but it is the most versatile material available; it can be molded and shaped with great precision and delicacy.

Bomanite concrete countertops can be colored, polished, stamped, stained, smoothed and polished, giving the illusion of elegant stone or majestic marble. Imagine no longer. See your style reflected in your kitchens, bathrooms or corporate boardrooms, provided exclusively by Bomanite.

Vertical

Bomanite Vertical Systems is a technology combined with lightweight-polymer-modified-mixture to enable workability in vertical surfaces.

Bomanite Vertical Systems can refurbish old, worn out surfaces and turn them into a new and exciting expanse of color, pattern, stone, and texture - used on interior or exterior environments, even horizontal surfaces.

With the tight deadlines and budget constraints often faced by architects and designers, it is the perfect solution to fit any project. Bomanite Vertical Systems brings your vision to life.

"Bomanite allows me to develop my creativity and technical skills on a regular basis; every job provides exciting new opportunities, and our customers rely on our expertise and knowledge to complete their premier projects."

Pablo Aviles, Mexico
Bomanite Manufacturing Licensee since 1995

"Partnering with Bomanite has allowed Heritage Bomanite to differentiate ourselves from our competition. Bomanite helps create specifications, which leads to a greater number of better-quality projects for us. Our relationship with Bomanite has grown over the years, and with their continuing efforts to market new and innovative concrete finishes, we certainly benefit."

Sergio A. Ilic, California
Heritage Bomanite

"We are proud to partner with the pioneer and global leader in decorative concrete. Bomanite offers its signature stamped concrete as well as a variety of other hardscape solutions giving us a strong competitive advantage. We look forward to continued expansion and growth in South America."

Federico Rodriguez, Solatec South America
Bomanite Manufacturing Licensee since 2012

"When it comes to decorative concrete works, Bomanite is the best. The history and accumulated experience that is inside the Bomanite family is a gold mine of knowledge and lessons learned. All Bomanite contractors can benefit from this priceless pool of information. After just a couple of months, we became market leaders in exposed aggregate and landed the biggest contract in the region."

Chadi Zakhour, Qatar
Bomanite Master Licensee since 2017

“The highest value Cho and I have experienced is the friendships gained since 1982 from meeting the best of the best at the Annual Conference Meetings or Technical Workshops held in the USA. These friendships are still close to our hearts and we are so grateful for their encouragement and for their unwavering generosity in sharing their knowledge and skills, not to mention the great fun and the frequent occasions of laugh-till your-sides-split.”

Joanne Ong Tan, Malaysia
Bomanite Manufacturing Licensee since 1982

“I feel lucky that, 20 years ago, I encountered Bomanite. Over the years I have enjoyed strong support and family relationships within Team BIL. Being one of the largest applicators of Bomanite systems in the world, Orangestone has grown to become the leading decorative concrete company in China, successfully completing 85% of Shanghai Disney with the direct support of Bomanite staff, materials and techniques.”

Wang LiZhong, China
Bomanite Manufacturing Licensee since 2000

“Bomanite offers a solid complement in our landscape construction services. It allows us to offer a full range of services from softscape to hardscape. Bomanite as a brand known for its quality has elevated us above our competitors. We have expanded our Bomanite territory to include 7 other countries in SE Asia, providing a stable platform for sustainable growth for our family business that started 45 years ago, that I can pass on to my children.”

Rolly Trballo Sr, Philippines
Bomanite Manufacturing Licensee since 1977

“My favorite Bomanite system is Stamped Concrete because that is where it all started. We have a passion for creativity and are continuously learning and discovering new designs and patterns. We are strongly supported and inspired by Bomanite’s close family ties to continuously work hard.”

Naps Algenio, Philippines
Bomanite Installer Licensee since 2012

Licensing Opportunities

Bomanite has a reputation for quality and only Bomanite licensees have access to Bomanite products, systems and tools. This is the only way to maintain quality and that is why Bomanite is the preferred solution for stamped and decorative concrete throughout the world. What sets us apart in the industry is the network and team effort between licensees all around the globe.

We have 3 types of licensing opportunities available at this time:

a) Installer License Agreement

Installer Licensees are given a non-exclusive right to sell and install Bomanite products obtained from a Bomanite Manufacturing Licensee or other pre-approved sources in a pre-agreed geographic area.

b) Master License Agreement

Master Licensees are required to purchase Bomanite products from Bomanite Manufacturing partners or other Bomanite pre-approved sources to install within their specified and exclusive Licensed territory.

c) Member / Manufacturing License Agreement

Manufacturing Licensees obtain an exclusive license to operate within specified territories and will receive training and guidance to setup manufacturing for Bomanite Products, Territory development initiatives as well as QACC and other assistance.
